25X1 5. [ ] JSW) Harry Carter of USIA telephoned inquiring concerning the questions raised by George Allen's television statement on instructions to Francis Powers. I indicated this had been raised particularly in House Foreign Affairs and we would advise him further.

25X1 6. [ ] - JSW) At the request of Senate Post Office and Civil Service Committee, Mr. Warner sat at the hearings of that Committee considering H. R. 7756, the Overseas Allowances bill. It had previously been indicated that we had no statement to make but would be available for questions since the bill did amend the CIA Act of 1949. Senator Yarborough chaired the meeting and Senator Fong was present. Roger Jones was the principal witness. Other witnesses included Dayton Hull of State and Leon L. Wheeler and John A. Watts of DOD. The Committee seemed well disposed toward the bill and it seems likely that it will be reported favorably.

25X1 7. [ ] - JSW) Talked with Bill Darden concerning the possible appearance by the DCI before the CIA Subcommittee of Senate Armed Services indicating that the Director was prepared to meet with the group and wanted the Senator to be aware he planned to leave the country on 10 June and would return in early July. Mr. Darden indicated that it was unlikely that Senator Russell would have time before 10 June; however, he would bring the matter to Russell's attention. Darden stated possibly it could be done after the Director's return and before Congress adjourns.

25X1 8. [ ] JU) [ ] attended the hearings of the Subcommittee on National Policy Machinery where the Honorable W. Averell Harriman testified. See Memorandum for the Record for full details.
